

EKUANTUM · SEPARATE MODULE FOR EK1 · YOUR ONLINE SCHOOL

YOUR ONLINE ACADEMY, WITH YOUR BRAND AND YOUR STUDENTS IN ONE PLACE

Courses, bundles and memberships with your own website and domain, students with their progress, payment by one-off fee or subscription, branded emails, certificates and reviews. Unlimited courses, teachers and students, a community and a live classroom with Zoom or Meet. Added on top of EK1 CRM, no Suite needed.

THE REALITY

Your courses on one platform, your students on another. And payments by hand

Do your courses live on someone else's platform, with their brand and a fee per student?

Do you charge students with loose links and then note by hand who has paid?

Do students start a course and you do not know who is moving and who dropped out?

Do you send certificates and welcome emails yourself, one by one?

COURSES · STUDENTS · PAYMENT · CERTIFICATE

From enrolment to certificate in your own school

The student signs up on your academy's website, opens their courses, moves lesson by lesson, pays by card or bank transfer, gets branded emails and, at the end, their certificate.

Payments with your Stripe — Invoices and instalments for courses, bundles and subscriptions are issued on their own, with your company's details, in the same panel. To take card payments you connect your own Stripe; without Stripe you can charge by bank transfer.

WHAT IT DOES FOR YOU

Your online school, in the panel

01 Courses, bundles and memberships
Single courses, bundles of several courses and memberships. Each course or bundle can have several prices: one-off, subscription, hidden by link, and team plans with seats.

02 Your website and your domain
A course showcase with categories and reviews, and your own domain per academy. If you have more than one academy, each has its own site.

03 Learning your way
Lessons in a required order, release by date, and a course marked complete by the percentage of video watched.

04 Access and sign-up
Open access, with approval, or by invitation only. Your own sign-up fields in each academy.

05 Emails with your brand
Welcome, access approved, inactivity notice and course completed, editable per academy, with a preview.

06 Certificates and reviews
A certificate template with your logo, your signature and your texts, as a PDF. Reviews moderated by you.

WHAT YOU GET

A school that runs by itself, from enrolment to certificate

Not a list of videos: your academy with its students, its payments and its brand.

🎓 Unlimited courses

Unlimited courses, teachers and students.

💳 Payments that record themselves

One-off or subscription, with an invoice.

📈 Each student's progress

Who is moving, who has stalled and who has finished.

🏅 Certificate at the end

As a PDF, with your template.

HOW IT WORKS

From the idea to your first student

1. You create your academy and choose your domain, logo and colours.
2. You upload your courses with their lessons, and group them into bundles or memberships if you like.
3. You set a price on each course or bundle, and connect your Stripe if you want to take cards.
4. The student signs up, opens the course and moves on; the panel shows their progress and records their payments.
5. At the end they get their certificate, and you see sales, progress and reports.

Your school, open 24 hours, with your brand.

THE DIFFERENCE

Not just a course platform. It is your school inside your panel

› No fee per student

Unlimited courses, teachers and students for €49 a month.

› Your brand, not ours

Website, domain, emails and certificates with your identity.

› Several prices per course

One-off, subscription, hidden by link and team plans.

› Students and clients together

Your students sit in the same panel as the rest of your contacts.
