

EKUANTUM · ADD-ON FOR EK1 SUITE · HEALTH, BEAUTY AND WELLNESS

YOUR CLINIC OR STUDIO, WITH THE CALENDAR AND RECORDS IN ORDER

A calendar per practitioner and per room or machine, a client record with a health questionnaire and before-and-after photos, consent signed on the phone, session vouchers that count down on their own and aftercare by WhatsApp. With AI that prepares the appointment, organises your notes and flags who may not show up. For tattoo and piercing, aesthetics and medical aesthetics, and then therapies, physio, podiatry, psychology and nutrition. The system does the maths.

EKUANTUM

EK

THE REALITY

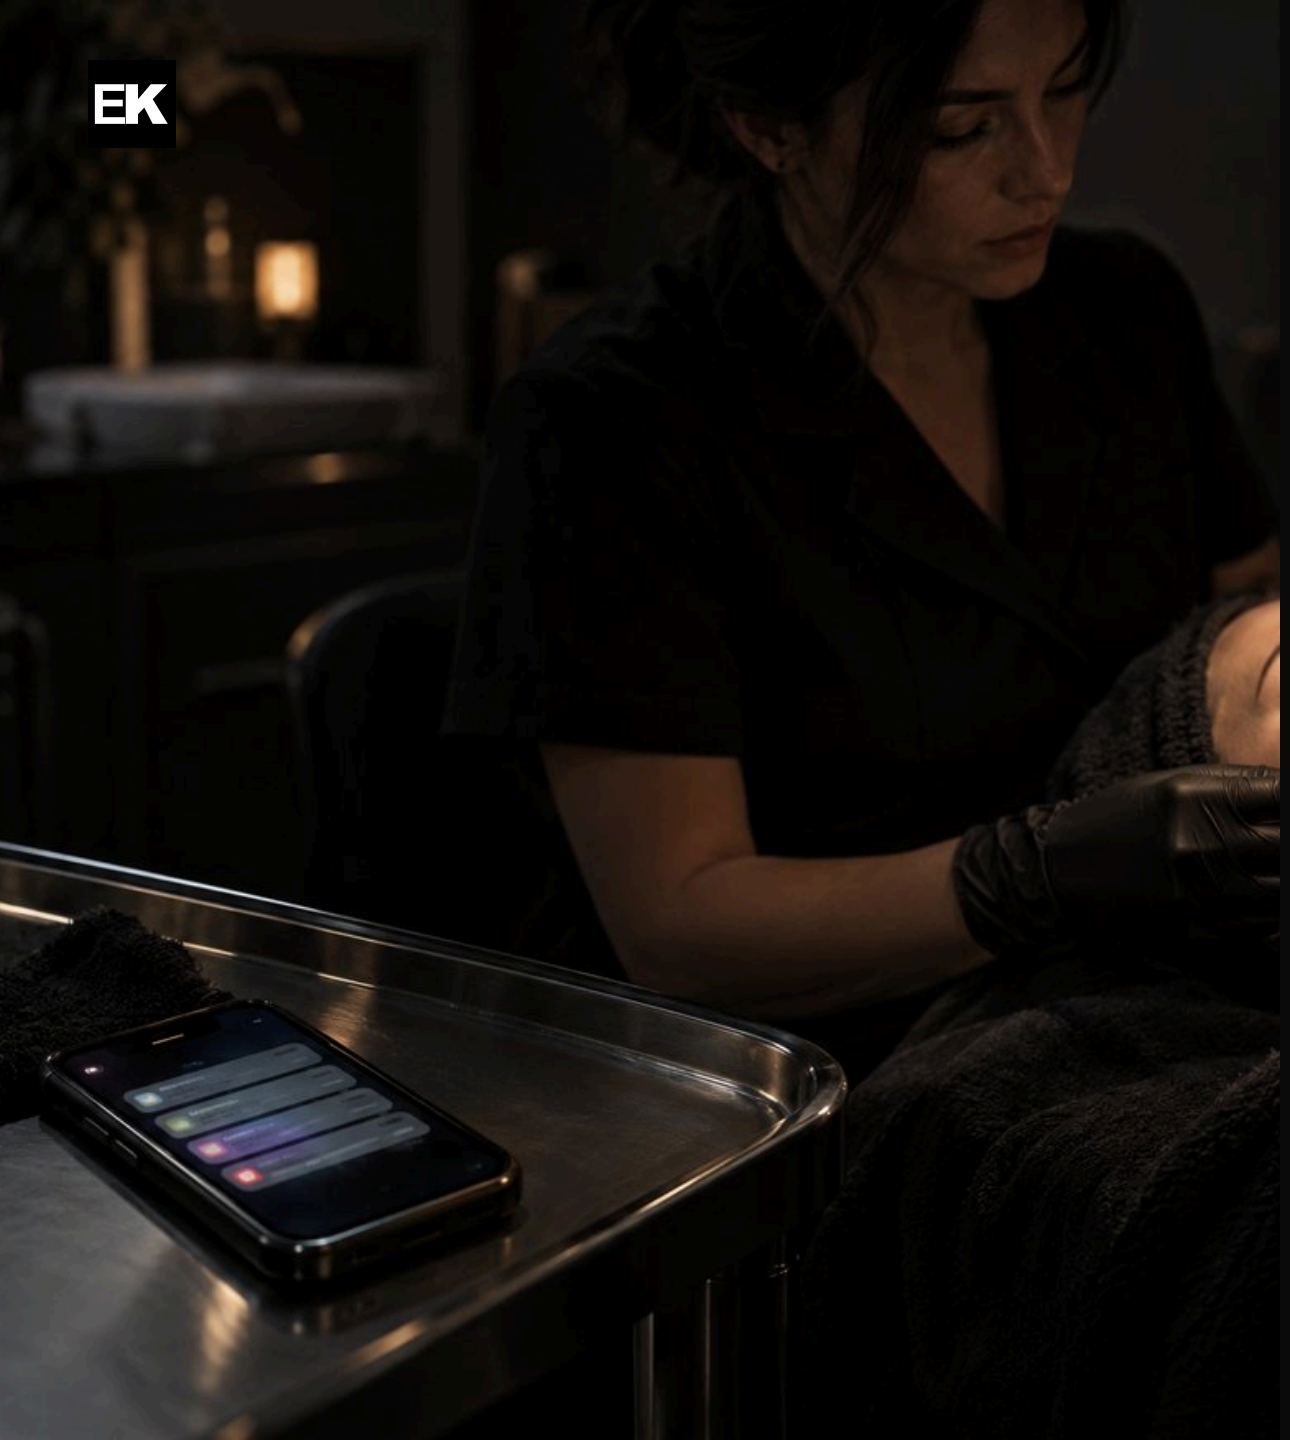

Appointments in a notebook, records on paper. And one laser booked twice

Do two clients book the same laser or room at the same time?

Do the health questionnaire and the consent live on paper, and sometimes go missing?

Do you keep session vouchers by hand and lose count?

Do you have to remember to send aftercare and the check-up for each client?

BOOKING · RECORD · CONSENT · PAYMENT

From first message to touch-up in the same panel

The client books, fills in their health questionnaire, signs consent on their phone, is treated and pays, and gets aftercare and the touch-up by WhatsApp. It all stays on their record.

The system does the maths — Prices, the VAT on each treatment and vouchers are calculated by the system, never by the AI. VAT is applied on its own: exempt for health treatments, 21% for aesthetics and tattoo.

EK

WHAT IT DOES FOR YOU

Your clinic or studio, in the panel

01 Calendar per practitioner and room
Each practitioner with their own calendar, and each room or machine with theirs: a laser cannot be in two appointments at once. The calendar assigns practitioner and room or machine so they never overlap.

02 Client record
A health questionnaire before the first appointment (allergies, contraindications) and before-and-after photos with a comparer.

03 Consent on the phone
One consent per treatment, signed on the phone, with a guardian if the client is a minor.

04 Session vouchers
You sell the voucher and each session counts it down on its own.

05 Aftercare and touch-ups
Automatic aftercare by WhatsApp and a scheduled touch-up or check-up.

06 VAT per treatment
A treatment catalogue with prices. The system decides the VAT: exempt if health, 21% for aesthetics and tattoo.

07 AI that works with you
The client prepares the appointment from their phone, the session note is dictated and organised automatically, and you get a daily briefing on Telegram. Messages to clients go out only when you press send.

EK

WHAT YOU GET

A well-run client, from booking to check-up

Not loose papers: the client record with everything you do for them.

📅 No double bookings

Per practitioner and per room or machine.

📋 Complete record

Health questionnaire, consents and before-and-after photos.

🎟️ Vouchers that count down

Each session deducts from the voucher by itself.

💬 Aftercare by WhatsApp

Instructions and check-ups scheduled automatically.

EK

HOW IT WORKS

From booking to check-up

1. Load your treatment catalogue with prices.
2. The calendar assigns practitioner and room or machine so they never overlap.
3. Before the first appointment they fill in their health questionnaire; on the day they sign consent on their phone.
4. You treat, charge, and if it is a voucher the session counts down on its own.
5. Aftercare reaches them by WhatsApp and the touch-up or check-up is scheduled.

Every client ends up with a complete record, no paper.

EK

THE DIFFERENCE

Not just a calendar. It is your business with the record inside

› All in the same panel

A calendar per practitioner and room, consent with a guardian for minors, vouchers and payments. With Clínicas Pro, the deposit too. And if you have Kira, it answers and replies on WhatsApp, Instagram and voice.

› Built for aesthetics and tattoo

Rooms and machines that never overlap, and aftercare with alarms that alert a person. With Clínicas Pro: product batches per client, an artist portfolio, tattoo design commissions and an hours-and-price estimator.

› AI with health data, switched off

It comes switched off by default, the account owner turns it on, and who uses it is recorded.

› No VAT doubts

Exempt if health, 21% for aesthetics and tattoo, decided by the system.

EK

WHAT YOU GET

A clinic or studio in order and paper-free

1 calendar per practitioner and per room

1 consent per treatment, signed on the phone

0 amounts calculated by the AI

1 record with everything you do for the client

EK

WHAT IS INCLUDED

EK1 Clínicas, inside your Suite

- ✓ A calendar per practitioner and per room or machine (a laser cannot be in two appointments at once). The calendar assigns practitioner and room or machine so they never overlap.
- ✓ Treatment catalogue.
- ✓ Client record with a health questionnaire before the first appointment (allergies, contraindications) and before-and-after photos with a comparer.
- ✓ Consent per treatment signed on the phone, with a guardian for minors.
- ✓ Session vouchers that count down on their own.
- ✓ Automatic aftercare by WhatsApp and a scheduled touch-up or check-up.
- ✓ VAT per treatment decided by the system (exempt if health, 21% for aesthetics and tattoo).
- ✓ With EK1 Clínicas Pro: a deposit at booking and a waiting list that fills gaps.
- ✓ With EK1 Clínicas Pro: the batch of each product (inks, vials) noted on each client's record, with stock and expiry dates.
- ✓ With EK1 Clínicas Pro: commissions per practitioner and room or chair rental.
- ✓ With EK1 Clínicas Pro: treatment quotes by phases and monthly instalments.
- ✓ With EK1 Clínicas Pro: client portal.
- ✓ With EK1 Clínicas Pro, for tattoo: a portfolio per artist and design commissions.
- ✓ AI: the client prepares the appointment from their phone (health and consent), the session note is dictated and organised automatically, and a before-and-after photo comparer with informational guidance, never a diagnosis.
- ✓ AI: an aftercare assistant on WhatsApp that alerts a person if something goes wrong, and a radar of clients who may not show up, have not come for a while or have vouchers about to expire (messages go out only when the centre presses send).
- ✓ A daily briefing on Telegram with who is coming and each record's alerts.
- ✓ With EK1 Clínicas Pro, for tattoo: an hours-and-price estimator and a design brief.

It is not a legally valid clinical record: it includes no prescriptions or billing to insurers, and dental is separate, later on. The system does the maths and what is not there yet is delivered in phases of the start-up. EK1 Suite is required. AI with health data comes switched off and the account owner turns it on; its use is charged to the wallet.

EK

ADD-ON FOR EK1 SUITE

€49

PER MONTH · EXCL. VAT · REQUIRES EK1 SUITE

It is added to **EK1 Suite** (€79/mo). **EK1 Clínicas Pro** (€99/mo) replaces Clínicas and adds a deposit at booking, a waiting list, product batches, commissions, quotes by phases, monthly instalments, a client portal and, for tattoo, a portfolio per artist. Optional start-up service: €990.

Add-on module for EK1 Suite: an active Suite is required. Optional start-up service of €990 (bringing over your clients, vouchers and history from the program you use). Prices exclude VAT (Emporio Kuantum OÜ, Estonia · intra-EU reverse charge with a valid VAT number).

THE NEXT STEP

How many appointments clash in a week?

Book a free consultation and we will show you your clinic or studio in the panel.
