

A man with a beard, wearing a light blue shirt and a dark suit jacket, is looking down at a smartphone he is holding with both hands. The background is dark and out of focus.

EKONE · GHL

Unlimited WhatsApp in your GHL

Your usual number. No
Cloud API. No per-message
cost.

Connect any WhatsApp
number —yours, your
team's or the business one
— directly to your
GoHighLevel CRM and
automate your
conversations through our
system (Evolution + n8n).
No WhatsApp API

IS IT FOR YOU?

A service for GHL clients

- ✓ **For EKONE / GHL clients who manage their account with our agency. You don't need to have the AI Employee.**
- ✓ **Is your GHL account with another agency? No problem: we first transfer your account to us and then activate it.**
- ✗ **Already have the AI Employee? Then this service isn't for you: your AI Employee already includes an advanced version of WhatsApp with conversational AI.**

WHATSAPP CLOUD API

Rigid, expensive and limited

- ✗ You need technical knowledge to set it up
- ✗ The Cloud API number can't be used on your phone or WhatsApp Web
- ✗ You can only connect one number per subaccount
- ✗ Messages have an extra cost (per session, template and country)
- ✗ It doesn't work with voice notes or full multimedia
- ✗ GHL configuration is limited and inflexible

EK WA CONNECT

Flexible, unlimited and with no per-message cost

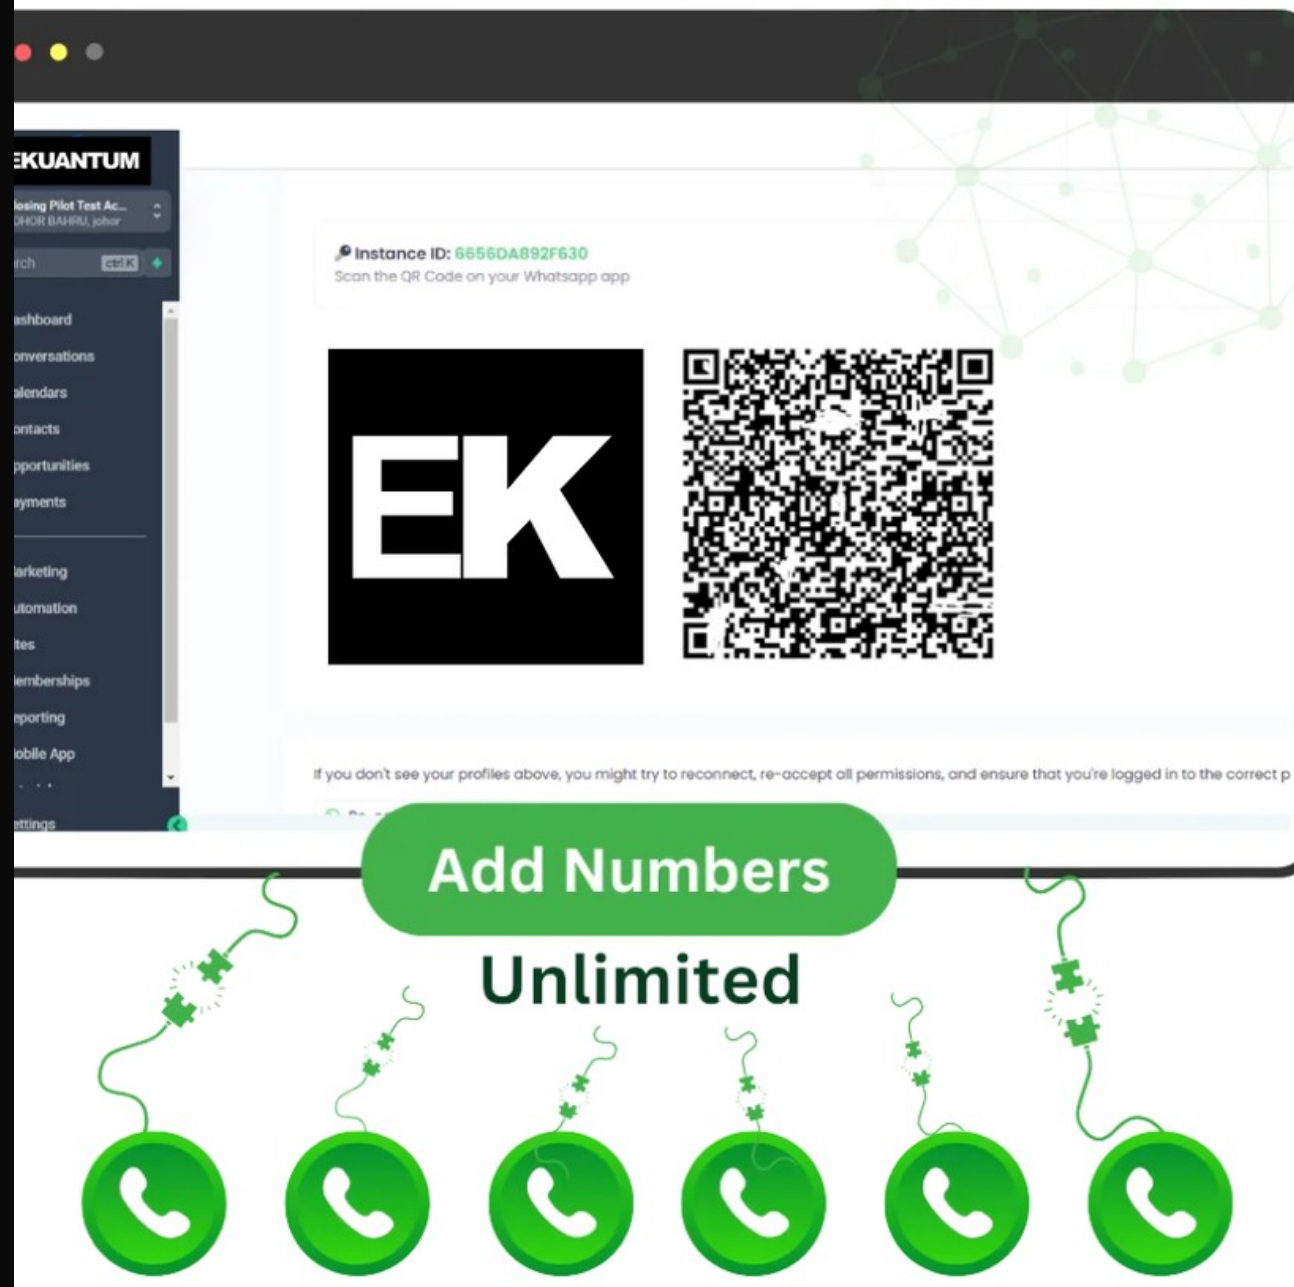

- ✓ Use your personal or business number, with no API registration
- ✓ Works on your phone and WhatsApp Web at the same time
- ✓ Multiple numbers per subaccount
- ✓ Voice notes, images, videos and documents
- ✓ Native automations from GHL (workflows, triggers, keywords)
- ✓ If the contact has no WhatsApp, automatic SMS fallback

EK

EVERYTHING INCLUDED

Your WhatsApp, connected to your CRM

- ✓ Use of your WhatsApp number with no restrictions
- ✓ Full automations from GHL (workflows, triggers, keywords)
- ✓ Replies based on keywords or the contact's behavior
- ✓ Send images, documents, videos and audio
- ✓ Record and send voice notes from GHL
- ✓ Works with WhatsApp groups too
- ✓ Everything logged on the contact record in your CRM

Activating it is simple

- 1** **We link your number.** You scan a QR just once and your WhatsApp is synced with our system. Keep using it on your phone as always.
- 2** **We connect it to your GHL.** We install the integration so your CRM sends and receives messages through that number.
- 3** **We automate with n8n.** We build the sequences and automations you decide: welcome, reminders, follow-up...
- 4** **You converse and sell.** Every message is logged in GHL, with the full history of each contact.

CAPTURE · QUALIFY · SELL

Capture, qualify, sell and retain — automatically

Every lead that comes in through a form, an ad or your WhatsApp enters a guided conversation: they're welcomed, asked the qualifying questions, sent the information they need and followed up. Without you having to watch your phone, and with everything organized inside your CRM.

SEQUENCES AND AUTOMATIONS

What we install in your GHL

◆ Welcome sequence

Automatic message, qualifying question, PDF or video delivery and CRM registration.

◆ Appointment reminders

WhatsApp 24h and 1h before, with reschedule option and a heads-up to the rep if the client replies.

◆ Cold lead recovery

Gentle, staggered nudges if the contact stops replying, without being intrusive.

◆ Client onboarding

Welcome with instructions, access, documents and FAQs after the purchase.

◆ Sales follow-up

Personalized message based on the deal stage in your pipeline (payment pending, offer sent...).

◆ Reactivate inactives

Re-engage clients who haven't bought in a while with a warm message and an offer.

◆ Satisfaction surveys

Ask for a rating after an appointment or delivery and trigger support if something went wrong.

◆ Lead distribution

Split qualified leads across your team and notify the assigned rep on WhatsApp.

◆ WhatsApp in your funnel

From the ad or email to a real conversation that qualifies and routes to a person.

IMPORTANT · RESPONSIBLE USE

It's not a mass-blasting tool

EK WA Connect is designed to automate conversations and sequences with your contacts, not to send mass campaigns. Sending messages in bulk or too frequently to people who aren't expecting them can get your account blocked or make you lose the number. Use it wisely: relevant messages, to people who already know you and expect to hear from you.

Want to run WhatsApp campaigns? We have another product designed and prepared for that — ask us.
