EKUANTUM

AI EMPLOYEE · AUTOMATION + AI AGENTS

The digital employee that **never sleeps**

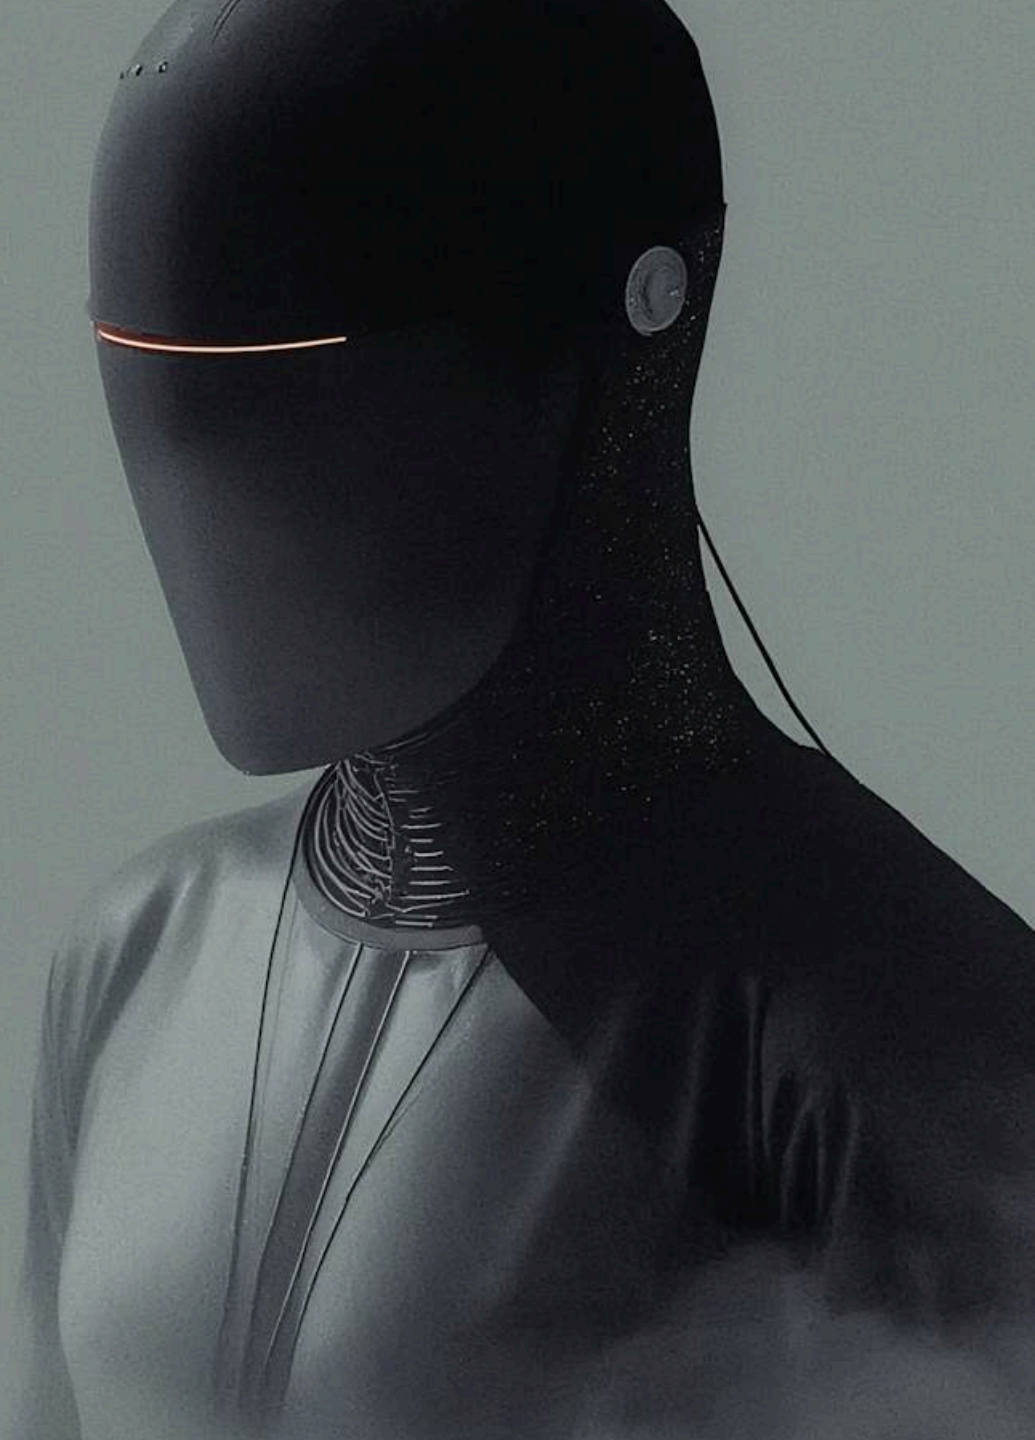

An AI agent on WhatsApp and voice that attends, qualifies, books and sells for you. 24/7/365. A revolution within reach of any business.

THE REALITY

AI is no longer optional

It's the key to surviving in the market. Your competitors are already integrating AI agents into their business.

If your company doesn't have an **AI Employee**, it will fall behind.

IN ONE LINE

What is an AI Employee?

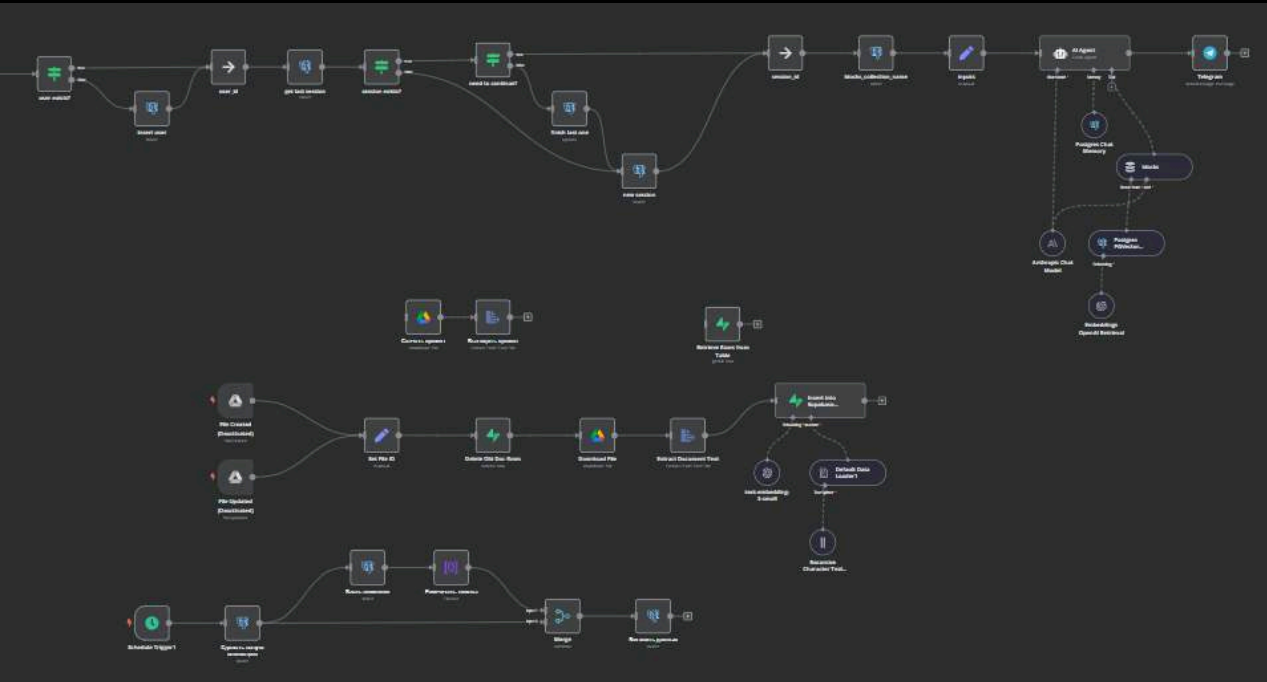

- ✓ An AI conversational and voice agent connected to your digital channels.
- ✓ It attends, replies, books, follows up and generates sales.
- ✓ It's trained on your information and connected to your CRM.
- ✓ Available in multiple languages, 24/7/365.

WHAT IT DOES

Core capabilities

- ✓ Conversation over WhatsApp and Webchat.
- ✓ Lead capture and qualification (forms, Meta Ads, etc.).
- ✓ Delivery of PDFs, catalogs and lead magnets.
- ✓ Message sequences to warm up and close appointments.
- ✓ Opportunity follow-up all the way to conversion.
- ✓ Voice agent that calls, takes calls and books meetings.
- ✓ Connection to your CRM (GHL, Zoho) or Google Sheets/Airtable.

While you sleep, it books, filters, informs, replies and sells.

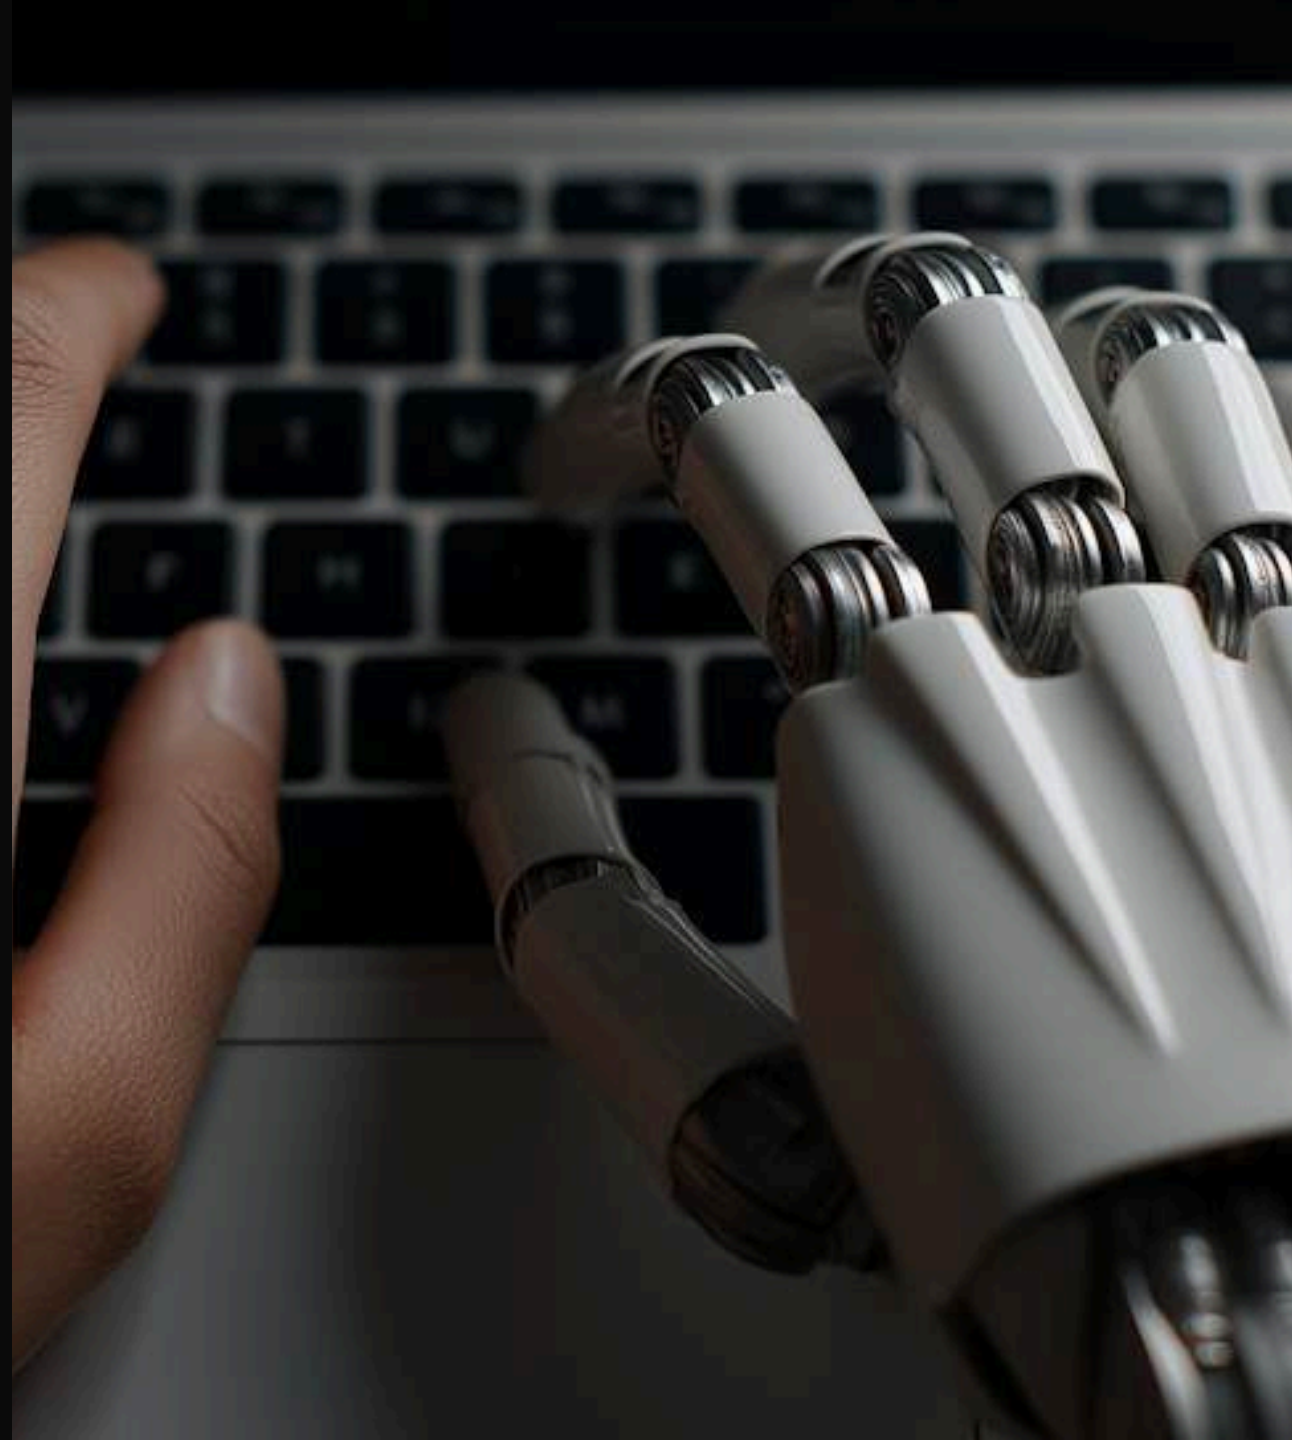

AI SUPERPOWERS

Extra modules

- ✓ Personalized lead magnets (PDFs with the client's name, videos, audio).
- ✓ Themed sub-agents (bookings, orders, surveys, promotions).
- ✓ Automatic reminders by WhatsApp / email / voice.
- ✓ Recognition of customer audio and images over WhatsApp.
- ✓ Personalized audio notes in a natural voice.
- ✓ Ultra-realistic personalized videos, or your own clone.
- ✓ Automatic customer surveys and diagnostics.
- ✓ Advanced connection with Instagram, Facebook Ads and Google Ads.
- ✓ Automatic design, creation and posting on social (reels/posts).
- ✓ Data scraping and lead capture across platforms.

...more than 2,000 automations available.

WHY IT EXISTS

Three goals, always

- 1** Make the company **money**.
- 2** Give the team **time** back.
- 3** **Solve problems** and improve the customer experience.

THE COST OF WAITING

**Why are you losing money
without knowing it?**

**78% of leads not answered
within 5 minutes never convert.**

SPEED

**It replies in seconds,
24/7**

With courtesy, precision
and unlimited knowledge of
your products and services.
In **56 languages.**

WHAT YOU GAIN

Clear benefits

- ✓ Savings of +€20,000/year versus a human employee.
- ✓ Up to 3x more appointments and sales.
- ✓ Immediate responses, no waiting.
- ✓ A premium experience for clients at any hour.
- ✓ Scalability without hiring more staff.

More money, more free time and happier customers.

Human employee vs **AI Employee**

	Human employee	AI Employee
Salary + tax	€1,800-2,200/mo	€100/mo
Hours	40 h/week	24/7
Holidays / sick leave	Yes	None
Ongoing training	Costly	Once and done
Languages	1 usually	Spanish + English (+56)
Scalability	Limited	Unlimited

An AI Employee pays for itself in weeks, not years.

VERSATILE

For every kind of business

Benefits for ALL businesses, online and offline. An AI Employee adapts to any sector because it manages clients, leads, appointments, sales and support.

The difference is in how it's applied to each business.

Sectors and businesses for an AI Employee

Health & aesthetics

- 24/7 receptionist that books and confirms appointments.
- Reminders that cut no-shows.
- Answers questions: prices, hours, treatments.
- Takes calls and transfers to a human when needed.

Shops & ecommerce

- Answers on products, stock and shipping.
- Discount coupons and PDF catalogs.
- Recovers abandoned carts.
- Handles simple returns and builds loyalty.

Gyms & wellness

- Answers prices, hours and trainers.
- Books free trials or intro sessions.
- Sends routines, promos and reminders.
- Builds loyalty with motivational messages.

Real estate & construction

- Instant replies to buyers and sellers.
- Sends property sheets and downloadable guides.
- Qualifies leads (budget, area, type).
- Books viewings and chases those who didn't reply.

Travel, tourism & leisure

- Answers questions about travel packages.
- Confirms flights, excursions or activities.
- Sends personalized itineraries.
- Calls to confirm attendance and upsell.

Industry & B2B

- Capture and qualification of corporate clients.
- Catalogs, spec sheets and quotes.
- Lead follow-up until a meeting is booked.
- 24/7 attention for distributors and suppliers.

Insurance & finance

- Instant quotes from the client's data.
- PDFs with policy comparisons.
- Automatic follow-up until the policy closes.
- Handles renewals and claims.

Professional services

- Filters leads with strategic questions.
- Books initial meetings or video calls.
- Sends quotes and contracts as PDF.
- Follows up until the signature.

Restaurants, bars & hotels

- Automatic table or room booking 24/7.
- Booking confirmations and reminders.
- Online orders over WhatsApp and webchat.
- Personalized promotions.

Automotive

- Books test drives or workshop appointments.
- Sends catalogs and spec sheets instantly.
- Follows up interest in a specific model.
- Confirms deliveries and servicing.

HIGH-IMPACT DATA

Numbers that impact

Operating hours per month	+1,400 h (24/7, no breaks)
Leads handled per month	+2,000
Average response time	< 1 second
Qualified-lead conversion	+60%
Increase in booked visits	x5
Potential staff savings	up to €6,000/mo
Rescued opportunities	+75%
Estimated 90-day ROI	+900%

Everything you usually ask

Does an AI Employee replace my team? No, it complements it. It handles repetitive tasks and 24/7 attention, freeing your team for what matters: relationships and closing. Though in many roles it can perfectly replace back-office staff.

Does it sound like a robot? No. It uses natural voices and responses, designed so the client barely notices the difference from a person.

Do I need a CRM to use it? No. It integrates perfectly with CRMs like GoHighLevel or Zoho, but it also works with Google Sheets or Airtable.

Do I need technical knowledge? No. We handle the entire implementation. We deliver the system ready to run and give simple training to your team.

How long does setup take? Between 14 and 28 days from signup, including training on your information, catalogs and brand personalization.

What if I change my catalog or services? It connects to your database, Excel or CRM, so it updates automatically. For major changes we offer retraining at no extra cost.

Does it work with real phone calls? Yes. It answers and makes calls with a natural voice: books appointments, resolves questions and follows up on opportunities.

Is it only for large companies? No. Small and mid-sized businesses benefit the most: they save on fixed costs and multiply productivity without hiring more staff.

How does it integrate with my current systems? It's compatible with most CRMs, lead managers and office tools (GoHighLevel, Zoho, Excel, Google Drive, etc.).

What about data protection? We're 100% GDPR compliant. Data stays on European servers and is never shared with third parties.

Is there a lock-in period? No. There's no mandatory commitment. You can cancel with 30 days' notice.

EK

INVESTMENT

How much does an AI Employee cost?

FROM

€2,997

all included

Monthly maintenance: ~~€300~~

€100/mo

Not included: OpenAI / Claude / Gemini tokens · phone line fees, WhatsApp SIM and call costs · CRM platform / Unified Digital Architecture (EKONE, favorable terms). Taxes not included (99% of companies and freelancers are VAT-exempt under intra-community operation). Emporio Kuantum OÜ, Estonia.

“We had a receptionist who couldn't keep up and we lost calls after hours. Since we deployed the AI Employee, patients book by WhatsApp at any time and we've never had empty slots again. The savings and the rise in patients have been brutal.”

— Dental clinic · Málaga

“Every lead from our ads took hours to get a reply and many went cold. Now the AI Employee replies in seconds, sends sheets, qualifies and books viewings on the calendar. In three months we doubled viewings without hiring anyone.”

— Real estate · Valencia

“My biggest problem was attending everyone interested in my programs. The AI Employee delivers my free guide, follows up with value messages and books sales calls. I only talk to leads that are already hot and ready to buy.”

— Coach / Academy · Madrid

“Attending everyone asking about insurance took us hours. With the AI Employee they get their quote instantly, keep getting reminders and book a call with an advisor. In a few weeks we raised closed policies by 40%.”

— Insurance agency · Sabadell

A single well-trained
AI Employee saves
up to **160 hours** of
human work per
month.

FOR THE SKEPTICS

Typical objections

“It's expensive”

→ A human costs +€20,000/year. The AI Employee, €1,200/year.

“My clients won't trust a robot”

→ It speaks naturally and improves the experience.

“I already have staff for that”

→ The AI Employee never tires and frees your team for what matters.

“This isn't for my sector”

→ Clinics, agencies, restaurants, academies... everyone can apply it.

The AI Employee is the new employee your business needs. If you don't integrate it now, your competitor will.

Available from €2,997 + €100/mo. 24/7, in Spanish and English, with more than 2,000 possible automations.

The question isn't *whether* you'll hire it. The question is *when*. And the answer is:

NOW

WHY EKUANTUM

And why build it with us?

Experience and global vision

Sam Laniakea — technology, productivity and life mentor.
AI architect with +28 years of business experience across Spain, the US, Mexico and Asia.
CEO and founder of Ekuantum, with more than 30,000 clients in 37 countries.

Our difference

We're visionaries and pioneers of the AI Employee concept.
We've created strategies and systems that other agencies buy from us.
Ekuantum leads the way, the rest follow.

Team and solidity

A network of specialists in digitalization and artificial intelligence.
Capacity to run local and international projects at scale.
We don't only serve companies: we also serve other AI agencies.

Results guarantee

With us you don't buy "software": you hire a proven system already transforming businesses worldwide.
Investing in an AI Employee with Ekuantum isn't an option, it's the smart decision.

We are an authority in artificial intelligence.

OUR WINNING PACK

And if I don't have a CRM or digital platform?

No problem: your AI Employee can run on Google Sheets or Airtable. But if you want a truly successful digital business, you need **EKONE** → **Unified Digital Architecture**.

€1,190

Maintenance: ~~€99~~ **€29/mo**

Website / landing pages, CRM, opportunities, invoicing, subscriptions, community, online academy, calendars, forms, surveys, automations, marketing (email/SMS/WhatsApp), social management and online reputation.

They don't need more apps: they need everything to work as one.

Ready to revolutionize your business?

Activate your AI Employee today and start earning more money, more time and solving problems.

“If your business doesn't have an AI Employee yet, get ready to watch your competitor take your clients. Either you adapt today, or you close tomorrow.”
